

I have operated my vacuum repair-business in Calgary for more than 30 years. Because I personally do most of the repair work, it is a serious matter when I have an injury and unable to handle my usual workload. I have had the misfortune to have been injured twice - each time the injury had long lasting effect on my ability to function at work and at home.

Because of their commitment and attention to details, the injury lawyers at Hanson Associates in Calgary were able to recover significant awards for me in both cases.

I am glad that they handled all aspects of my claim and saved me the trouble of dealing with the stingy insurance companies. Hanson Associates attended to a thorough and understandable assessment of my business losses so that my settlements included proper compensation for them. I was also well also well compensated for my pain and suffering and out-of-pocket expenses.
